

## CODE

Making Plenty of  
Trouble for

Brother Nash

Who Finds Legislators  
a Bally Lot,

Who Do Not Pay Much At-  
tention to His Recom-  
mendations.

The Proposition to Amend the Con-  
stitution is Gaining Ground  
Among the Law Makers  
of Columbus.

Columbus, Sept. 6.—The house com-  
mittee of the legislature was in ses-  
sion several hours and heard argu-  
ments upon the Nash code from the  
representatives of many cities and  
counties. Earnest pleas were made  
for the retention of the present as-  
sessment laws. The committee ap-  
pointed by the senate to compare the  
repealing sections of the governor's  
bill with the existing statutes will  
recommend that many changes be  
made in the provisions of this part of  
the code. The members argue that  
to repeal general laws which have  
been upheld by the courts and to en-  
act new ones is merely to invite  
needless legal battles.

There is some strong opposition to  
the governor's recommendation that  
but two subjects be considered this  
fall as several bills of minor impor-  
tance have been introduced.

Representative Max Meisel of Cuy-  
ahoga county will offer a joint resolu-  
tion amending section 6 of article  
II as to allow each municipality of  
more than 3,500 inhabitants to frame  
a charter for its own form of govern-  
ment. The proposed amendment to  
the constitution will be voted upon at  
the November election in 1903, if it  
is adopted.

The Guerin code bill, the fourth to  
be presented to the general assembly,  
was introduced in the house by the  
member from Erie. An important  
feature in the Guerin measure which  
differs from all others is the measure  
providing for the removal of the  
major by the governor. The next  
most important feature of the Guerin  
bill is its franchise clauses. It is the  
same as the governor's code, with the  
exception that Mr. Guerin makes pro-  
vision for the renewal of franchise  
rights about to expire, where money  
has been expended in good faith. Mr.  
Guerin uses the Comings code intro-  
duced two years ago as a basis for  
his structure. It embodies the fed-  
eral plan as a basic principle, but in  
addition to the franchise clause in  
the Nash code the Guerin bill also in-  
corporates the features of the gov-  
ernor's code relating to taxes, assess-  
ments, council, sinking fund and  
finance. The code provides for but  
six municipal officers as compared  
with 12 in the Nash bill. They are the  
mayor, four directors and treasurer.

## BETTER DAYS

Have Been Seen by the "Lit-  
tle Chocolate."

But He Will Take Chances in a  
Twenty Round Bout With  
Palmer.

London, Sept. 6.—There was a time  
not so very long ago when a fight be-  
tween George Dixon and "Pedlar"  
Palmer drew a crowd of record-  
breaking proportions, but the fact that  
the once-famous "Little Chocolate" is  
regarded as a book number is pain-  
fully evidenced by the lack of inter-  
est manifested in the fight between  
the two scheduled for the arena of the  
National Sporting club next Monday.  
Though Palmer was never a match  
for Dixon when the latter was in his  
prime he is now a decided favorite in  
the betting and the ring critics do not  
expect the colored boy to stay half the  
limit of twenty rounds.

Grain and Crops.

ber wheat 71½; corn 59½; oats 33½;  
pork 16.80.

changed; hogs 5,500, active, 5 and 10  
cents higher; sheep 500, slow, un-  
changed.

## BOWIE ON CHICAGO SIN

Latest Move of Clever Manipulator of  
Men's Souls and Purse.

Chicago, Ill., Sept. 6.—Dr. John  
Alexander Dowie will resume his at-  
tack on Chicago sin in the Auditorium  
theatre tomorrow. When he removed  
to Zion City last spring it was be-  
lieved that his regular Sunday "ram-  
pages" in the auditorium had become  
a thing of the past, but evidently the  
money flowed more freely into his cof-  
fers from the Chicago audiences that

permeated the big hall than in the case  
at Zion City. However this may be  
the last issue of Leaves of Healing  
contains the formal announcement  
that "Elijah II." is to return to the  
scene of his former trials and the  
overseers, evangelists, deacons, mem-  
bers of the seventies, and in fact all  
members of the Christian Catholic  
church in Zion are expected to turn  
out in force to bid him welcome.

## WAVED HIS PANAMA

Did Teddy, as He Whirled Through  
Ohio on His Special Train.

Zanesville, O., Sept. 6.—Aboard the  
Presidential special—The party arrived  
at Cambridge at 12:15 o'clock and  
left at 12:20. The President appear-  
ed on the rear platform and cheerfully  
waved his panama hat to the assem-  
bled multitude, half the folks from the  
surrounding pennersal district being  
there to cheer him. "I only want to  
thank you now," he said. "I'll be in  
Ohio to talk to you later." At Cam-

bridge, the attention of the Presi-  
dent was called to an alleged inter-  
view published in Philadelphia which  
quoted him as saying that the Penn-  
sylvania political leaders, he hopes,  
will settle the coal strike. It was of-  
ficially stated that the President had  
seen no reporters at Philadelphia, and  
that neither there nor elsewhere had  
he expressed any opinion on the  
strike. The arrival at Zanesville was  
at 1 p. m.

## FEDERAL FORCES WIN.

Troops Under President Castros Gain a  
Decisive Victory.

Washington, Sept. 6.—President  
Castro's troops have won a victory  
over the insurgents in a battle which  
took place yesterday, just outside the  
Venezuelan capital. The fact that the  
revolutionists had been able to ap-  
proach so close to Caracas before be-  
ing stopped is, in itself, regarded as  
significant of the strength of the  
movement which has kept Venezuela

in a state of turmoil for so many  
months. How serious was the de-  
feat to the revolutionary forces is not  
known here. Gen. Bowen, U. S. min-  
ister at Caracas in telegraphing the  
news of the battle to the state de-  
partment, says that it occurred on a  
mountain just behind the American  
legation. It lasted for four hours and  
ended in a rout of the revolutionists.

## STABBED

In a Columbus Saloon Fight  
Over Dice.

Fatal Ending of a Game Between  
Horsemen—Self Defense  
Claimed.

Columbus, Sept. 6.—Floyd Johnson,  
of Lancaster, O., who had charge of  
Ben Fettes and other race horses owned  
by Geo. Snyder, of Columbus, was  
murdered at an early hour this morn-  
ing by Walter Hodge of Toledo. Both  
the murderer and his victim are  
about 20 years old. They met at the  
Palace saloon. Charles Pierce was  
with Johnson. The three quarrelled  
over dice and Johnson was stabbed in  
the neck. He died soon after. Hodge  
is under arrest and claims self de-  
fense.

## EVACUATION

Will Not Result Unless in  
Extreme Case.

Paris, Sept. 6.—Complete evacuation  
of Martinique was not considered unless  
the extended activity of Mt. Pelée  
threatens the regions of the island yet  
untouched. If necessary, however,  
France will buy land elsewhere and  
colonize with the refugees from Mar-  
tinique and take all of the people  
away from the place.

## COMPARATIVE

Figures of the Oil Production  
in Indiana.

Portland, Ind., Sept. 6.—A report of  
the runs and shipments for the In-  
diana oil field in August of 1901-1902,  
shows the former to have been 938,  
962 barrels and latter 780,591 barrels.  
Shipments for the first eight months  
of this year were 7,462,661 barrels,  
valued at \$6,111,151.98. Runs for the  
same period were 5,562,592 barrels,  
valued at \$4,453,020.03.

## TRADE

Review for the  
Past Week.

A Healthy Tone

Is Reported from the  
Mercantile Centers

The Distribution of Mer-  
chandise is Very  
Heavy

And Good Prices Continue to Pre-  
vail, Which is Stimulating the  
Facilities for More  
Productions.

New York, Sept. 6.—Steady progress  
is reported in trade and indus-  
try, according to Dun & Company's  
weekly review. The distribution of  
merchandise is heavy, and a healthy  
tone is evident. Prices are well main-  
tained by liberal consumption, which  
more than neutralizes the effect of  
enlarged facilities for production. Do-  
mestic conditions continue much bet-  
ter than those existing abroad, and  
home trade received more attention  
than foreign commerce. Farm prod-  
ucts have appreciated in value owing  
to less favorable weather, and prod-  
ucers will be fully compensated for  
any decrease in quantity by their  
quotations. Earnings of railways dur-  
ing August were 3.6 per cent larger  
than a year ago and 18.9 per cent in  
excess of 1900.

Quotations of footwear are fully  
maintained at the recent advance. It  
is noteworthy that buying has been  
heaviest in the finer grades, and  
sample lines of spring styles are also  
much sought in the good qualities.  
A good feature is the urgency for  
quick shipments, indicating that  
stocks are low. Leather sells freely  
at the recent advance in quotations,  
but hides appear to have risen above  
the views of tanners, resulting in a  
quiet market. Advancing raw materi-  
al aroused much anxiety among pur-  
chasers of cotton goods and there  
were numerous inquiries for forward  
contracts, but the volume of business  
was not materially increased. Agri-  
cultural conditions are reported less  
satisfactory, and if the official esti-  
mate as to cotton is not exaggerated,  
the yield will not be large enough to  
sustain consumption at the present  
rate. Wheat is coming forward freely,  
though receipts do not equal the  
abnormal heavy movement a year  
ago. Corn developed strength because  
of fears that injury would be done by  
frost, and the movement is very slow  
compared with last year's figures.

Better deliveries of coke and lib-  
eral receipts of foreign material have  
lessened the pressure in the iron and  
steel industry, and the situation is a  
little less congested, while quotations  
in a few lines have weakened. Do-  
mestic demands are not decreasing,  
much new business having been  
placed, and home consumption will  
continue to call for imports on a  
large scale. Each week brings out  
new records of coke output, the up-  
per and lower Connellsville regions  
together having surpassed 300,000  
tons, and the holidays gave the rail-  
roads an opportunity to relieve the  
congestion. Unless rapid progress is  
made before the close of lake naviga-  
tion, less than two months hence, the  
situation will become serious. New  
plants are being added to the pro-  
ductive capacity as rapidly as possi-  
ble, but in railroad equipment, espe-  
cially steel rails, orders are already  
placed for much of next year.

## SENATOR SCOTT

Has Joined Roosevelt's Cam-  
paigning Party.

Wheeling, W. Va., Sept. 6.—The  
presidential party arrived in Wheeling  
on time at 8:30 a. m. The President  
spent a comfortable night. Senator  
Scott of West Virginia, joined the  
President at Benwood Junction, four  
miles from this city.

President Roosevelt spoke from the  
balcony of the McClure house to  
more than 5,000 people. He reiterated  
the belief that a constitutional amend-  
ment would be necessary in order to  
deal with great corporations. He left  
for the south at 10:30 o'clock.

## The Weather.

Washington, Sept. 6.—Ohio, showers  
and warmer tonight; Sunday, partly  
cloudy and cooler, with showers in  
northeast portions.

## LONG SERVICE ENDED.

Surgeon General Forwood Retires and  
is Succeeded by O'Reilly.

Washington, D. C., Sept. 6.—After  
a long and distinguished military rec-  
ord, covering a period of more than  
forty years, Surgeon-General William  
H. Forwood, of the army will be  
placed on the retired list tomorrow by  
operation of the age limit. General  
Forwood succeeded to the head of the  
medical department of the army three  
months ago on the retirement of  
Brigadier General Sternberg. He is  
a native of Delaware and a graduate  
of the medical department of the Uni-  
versity of Pennsylvania. In 1861 he  
was appointed a surgeon in the regular  
army, and his service in the civil war  
was marked not only by his skill and  
devotion to his work, but by dash and  
gallantry that won the admiration of  
all those with whom he served. His

coolness under fire was remarkable,  
and it is said of Gen. Forwood that he  
administered to the wounded when  
shot and shell were falling around  
him with as much skill as though he  
were behind the walls of a hospital.

The new surgeon-general of the U.  
S. army is Colonel Robert Mait-  
land O'Reilly, who succeeds to the  
honorary position on the retirement of  
General Forwood for age. Colonel  
O'Reilly was selected by the Presi-  
dent for the important position of  
chief medical officer because of his  
high standing in his profession and  
his popularity among the officers and  
men.

Colonel O'Reilly is a native of Phil-  
adelphia and is fifty-seven years of  
age.

## POLITICS IN MAINE.

A Long, Hard, Stump Speaking Cam-  
paign is Practically at an End.

Augusta, Me., Sept. 6.—The Maine  
political campaign practically closed  
today. The campaign has been one  
of the most spirited the state has ever  
seen in an off-year. The Democratic  
congressional committee has made a  
warm fight, flooding the state with  
literature and sending out stump-  
speakers in every direction. They

have not done this with any hope of  
carrying any of the congressional dis-  
tricts, but on account of the influence  
a reduced Republican majority will  
have on the campaign throughout the  
other states. They hope to cut the  
usual Republican majorities down to  
such an extent as to encourage Demo-  
crats everywhere to make a hard  
fight this fall.

## HARDSHIPS OF WINTER

Make Striking Miners Desirous to Re-  
turn on Almost Any Terms.

Keystone, W. Va., Sept. 6.—Since  
Friday morning, fully 2,000 striking  
miners have returned to work in the  
Flat Top and Elkhorn coal fields,  
stating that they did not care to wait  
until Monday, the day specified at the  
Keystone meeting, to begin work. The  
miners in this region are in rather  
poor shape for the approach of winter,  
and, seem desirous of taking advan-  
tage of every day possible to work.

## More Trouble.

Tamaqua, Pa., Sept. 6.—This morn-  
ing Major Gerhart found it necessary  
to again send troops through the  
Panther Creek Valley to quiet the ap-  
parent feeling of unrest. Company E,  
Capt. Weaver, patrolled the valley,  
but no notice was taken of the sold-  
iers. At Summit Hill, it is said that a  
large number of men are preparing to  
start to work Monday. This may  
cause trouble, but Major Gerhart will  
send troops there early Monday morn-  
ing.

## DISASTROUS

Fire Causes Severe Loss to  
Two Railroads.

Durand, Mich., Sept. 6.—Fire this  
morning destroyed a 600 foot freight  
shed of the Grand Trunk and Ann  
Arbor Railways; consumed thousands  
of dollars worth of merchandise;  
burned over 40 cars standing in the  
yards; sent a freight train out of the  
yards to a place of refuge down the  
track, all ablaze; cut off telegraph  
service in all directions and has  
stalled all trains. The loss is \$150,  
000.

## IN MEMORY

Of the National Tragedy Just  
One Year Ago.

Canton, O., Sept. 6.—This is the an-  
niversary of the shooting of McKinley  
and his widow observes the day by  
calling at the cemetery and placing a  
profusion of cut flowers on the coffin  
of the martyred President. In the  
city there are no indications of mourn-  
ing, but citizens, as they meet, recall  
to each other the Buffalo tragedy of a  
year ago.

## WITH DYNAMITE

Burglars Wreck a Bank Building.  
Citizens Held Off.

LaGrange, Ind., Sept. 6.—The bank  
of Fremont, Steube county, Ind., was  
entered by burglars and the vault and  
front of the building were completely  
wrecked by dynamite. The noise of  
the explosion awakened people living  
near, but they were met by armed  
men and at the point of revolvers  
were made to stay in their houses.  
A large amount of currency was in  
the safe, but the robbers overlooked  
the greater portion of it. When the  
robbers finished their work they car-  
ried off carriages, driving north from  
the village toward the Michigan state  
line. There were six men in the gang.

## MEANS

For Settling Big  
Coal Strike

In Their Hands.

Roosevelt Says it is Up  
to the Leaders

Of the Republican Party of  
Pennsylvania to Settle  
the Trouble,

So that Unless an Adjustment  
Comes Soon to the Anthracite  
Strike, Republicans Must  
Bear the Burden.

Philadelphia, Sept. 6.—The Record  
prints an interview on the coal strike  
with President Roosevelt, who passed  
through this city Friday on his way  
to Washington. The president is  
quoted as follows:

"I am grieved beyond measure at  
the difficulty in Pennsylvania and  
other coal producing states over the  
wage and kindred questions."

"What remedy is at hand?" he was  
asked.

"There is a remedy," said the presi-  
dent.

"Do you mean that the government  
of the United States can interfere,  
other than a law-preserving body?"

"No," replied the president, em-  
phatically.

"What can be done?" was then  
asked.

"I would refer you to the men at  
the head of the Republican party  
who are in control of affairs in Penn-  
sylvania. I am sure that their con-  
servative opinion of the difficulties  
rampant will ultimately result in an  
amicable settlement of this great  
question. Of course politics do not  
enter into the mining problem, yet I  
sincerely hope that the Republican  
principles, which are framed alike for  
high and low, will level the problem  
to an equity."

## West Virginia Settlement.

Wickesbarre, Pa., Sept. 6.—T. L.  
Lewis, vice president of the United  
Mine Workers, arrived here from Vir-  
ginia and had a conference with  
President Mitchell. Mr. Mitchell said  
Mr. Lewis' visit had reference to the  
strike in Virginia. President Mitchell  
says 700 men are affected by the set-  
tlement of the strike in the Pocahon-  
tas region. They were granted a  
semi-monthly payday, which the chief  
officer of the United Mine Workers  
holds a very important concession.  
About 20,000 miners are still out in  
the Kanawha, New River and Fair-  
mount districts.

## Order by Governor Stone.

Harrisburg, Pa., Sept. 6.—The  
sheriff of Carbon county having ad-  
vised Governor Stone of his inability  
to preserve order and to protect life  
and property, the governor ordered  
General Gobin to make such division  
of the troops now on duty as in his  
judgment is necessary to properly as-  
sist the said sheriff in maintaining  
order.

## MYSTERIOUS

Fire Destroys a Large Cin-  
cinnati Brewery.

Cincinnati, Sept. 6.—Fire destroyed  
the Independent Brewing Company's  
plant this morning. Firemen Chas.  
Jennings and Chas. Hollis were  
caught under falling walls and se-  
riously injured. The former may die.  
The loss is \$100,000. Members of  
company and employees believe the  
fire was started by enemies of the  
concern which is a non-union brewery.  
Mysterious explosions were heard at  
the beginning of the fire.

## REAL WAR

Will Begin When the Um-  
pires Get Together.

Newport, Sept. 6.—"War" between  
army and navy closed today at noon,  
after which there was a grand naval  
parade. Both the invaders and de-  
fenders claim victory and the real  
war will begin when the military am-  
pires make their decision.

## Live Stock Market.

East Liberty, Sept. 5.—Cattle light,  
steady; hogs active, higher; sheep  
light, strong.

### NOTICE.

The Orion social club's drawing will take place Saturday evening, Sept. 6th, at H. Vaughten's music store, public square.

### THE STAGE.

Tuesday, Sept. 9....."Maloney's Wedding Day"  
Thursday, Sept. 11....."Hearts of Oak"  
Saturday matinee and night, Sept. 13....."The Game Keeper."

James L. McCabe in "Maloney's Wedding Day."

Every lover of good, wholesome amusement ought to know that "Maloney's Wedding Day" will be at the Faurot opera house next Tuesday, Sept. 9. This is pronounced the brightest of the comedy successes of this season, and brings with it a veritable epidemic of comedy, romp, song and surprises. It is everywhere a welcomed visitor, and is said to contain more dramatic good things than anything ever attempted in this line of play writing.

The cast has the merit of capability and includes such clever people as James L. McCabe, who assumes the part of funny Dan Maloney, the victim of many humorous matrimonial complications, and Rose Bradbury, who plays the part of the captivating Widow Clancy. The plot and story are intensely entertaining, and situations and climaxes uproariously amusing. This will be the first and last presentation of this matchless production here this season.

One of the great charms of the plays written by James A. Herne is the introduction of delightfully natural children as speaking characters. In "Hearts of Oak," and "Shore Acres," two of the Herne plays that are meeting with the greatest success this season, the little children are entitled to no small portion of the applause of the public. Unlike the stage children of many years ago, they are not mere machines, trained to deliver lines in an unnatural voice and to walk around the stage in an unchildlike fashion. The children in the Herne plays are "real" children. Not only do they speak their lines as children do in many thousands of American homes today but the little ones give expression to the words in an equally lifelike manner. This is due to the fact that James A. Herne evolved the character of stage children from originals that he carefully studied. In the atmosphere of the rugged New England coast, where the scenes of "Hearts of Oak" and "Shore Acres" are laid, James A. Herne lived and watched the daily doings of the honest fisher and sailor folk. He not only studied the characteristics of the women but he spent many, many pleasant hours with the little children he found there.

Smith O'Brien, in his new play "The Game Keeper" will be the attraction at the Faurot opera house, Saturday matinee and night. It is a bright interesting play from first to last, with a thoroughly original plot worked out on lines that are almost in every respect new to the Irish drama. In the story that is told, no one can see the end from the beginning every act being literally bristling with surprises, and yet there is nothing so glaringly absurd and improbable as is almost sure to show itself in the stereotyped Irish play. "The Game Keeper," must take its place in the ranks of dramatic literature as a strong, crisp, original and essentially Irish play, full of powerful and thrilling situations and admirably constructed from first to last. There is a charm in an Irish play that is found nowhere else. The poor Irish wanderer, the ne'er do well, full of delightful informalities, rich in virtues of self sacrifice, is a genial character. Every body feels like shaking him by the hand. The play, too, must picture his side of Irish life. There is nothing uncommon in a brave impetuous, heroic Irishman. The man who is ready to give his last drop of blood for Ireland is not an exception. Further than the exception taken to him by England. Then again, every man of another nation feels that he too, is a hero when the occasion demands it. For that reason Land League dramas will never be popular. Even the good old Red Coat play is no more popular here since Americans can speak of "The War." What is wanted is a picture of the Irishman as he is found among the bogs of his native isle, as he is seen lounging, what is called in America "loafing," amid the old and cherished ruins of his native land, the "hudson" in his mouth or in his "caubeen" and not a care in his heart, singing the welcome one, welcome all, or whistling one of the many tunes of Sweet Ireland; making love to every lass that chances by and getting a rap in the lug for trying to steal a kiss; flinging his pipe, coat and hat to the wind at the first sound of danger to somebody else, and tushing in the midst of a melee to help the weak and friendless, and next resuming his careless lounging and rattling off his drollery. The company is the best that ever produced the piece. Smith O'Brien will be the hero. Mand Sutton the sou-brette. Molly Bawn will be the lead-

### UNCLE SAGE'S QUICK MOVE

How the Aged Financier Recently Saved a Penny.

The other day shortly after Russell Sage had given one of the New York evening papers an interview, in which he said that J. P. Morgan's great trust ideas would bring ruin on the country, the venerable financier and a newspaper reporter were standing in front of the Western Union Telegraph building. A small newsboy thrust an evening paper before Mr. Sage and urged him to buy it. On the front page in black letters was the name of Mr. Sage, says the New York Journal.

Mr. Sage tried to read the paper as the newsboy held it. The newspaper man, with whom Mr. Sage had been talking, finally decided to buy the paper for Mr. Sage and produced the required cent. Mr. Sage was reluctantly reaching for his pocketbook, but stopped in a jiffy when he saw a cent in sight. He accepted the paper with "I suppose you can get all you want for nothing."

"I had a running sore on my leg for seven years," writes Mrs. Jas. Forest, of Chippewa Falls, Wis., "and spent hundreds of dollars in trying to get it healed. Two boxes of Bannan Salve entirely cured it." No other salve so healing.

### Automatic Mail Carrier.

Edward Hamilton of Liberty, south of Dublin, Ind., though only nineteen, has distinguished himself as an inventor of electrical devices, says the New York World. His latest is an automatic mail carrier for rural route boxes. It is a small box with two wires running from the mailbox to the farmer's house and operated by batteries. When a letter is dropped into the box, the machine automatically carries the letter to the house and dumps it and rings a bell. By touching a button at the house the machine can be brought back at any time to receive letters for the mail carrier.

The Republicans cannot extract much comfort from the Vermont election which occurred Tuesday of this week. This usually strong Republican state failed to elect a governor, no candidate having received a majority of the votes cast which the laws of this state require. Consequently the legislature must elect the governor.

Russell Sage, of New York, a money king has this to say:

"Combinations of all great industries are a menace to the government. They are the oppressors of the people. Should an era of combination ensue the American people will certainly revolt against them, and if they do there will be financial ruin such as people never dreamed of."

The legislature four years ago sold Mark Hanna a seat in the United States senate. The present general assembly is expected to make him a present of a perpetual franchise for his Cleveland car lines over streets that belong to the people of Cleveland and to the members of the legislature. If the present legislature sells out the Cleveland and Cincinnati franchises to Hanna and Foraker it will go down in history as the "wise, economic and patriotic" legislature which robbed the people of the cities to satiate the greed of franchise sharks. Does the "wise, economic and patriotic" want to make that kind of a record? Columbus Press.

The newspaper accounts of the Roosevelt accident say that when that personage picked himself up out of the dirt and found he was not much injured he ran up to the man in charge of the motor which had caused the death of the faithful detective, and shaking his fist at him, denounced the collision as an outrage. What a spectacle! Can anyone imagine any of Roosevelt's illustrious predecessors stopping in the presence of death which had suddenly befallen one of the party, to quarrel with the culpable?

which caused the death. Roosevelt's accident was a case of a man's ability to shoot at a mark, but they can scarcely consider his lack of mental equanimity in his last moments.

According to the census just issued, Washington has the highest death rate among the larger cities of the United States during 1901. Charleston, S. C., stands at the head of the list with a death rate of 29.11 per 100. New Orleans next, 21.44; Washington, 23.44; Baltimore, 20.25; New York, 20; Boston, 19.70; San Francisco, 19.34; Cincinnati, 18.83; Philadelphia, 18.27; St. Louis, 17.67; Chicago, 13.88. Iowa was the most healthful state, with a mortality record of 9.2 per 1000, and among the territories Arizona was first, with a rate of 3.8. Louisiana had the largest percentage of deaths, 20.65. The healthiest town in the United States was Ellsworth, Wis., where with a population of 1500, there were only two deaths, one of those being from smallpox.

## AN EXPENSIVE LUXURY.

Four years ago Mark Hanna had to pay a big price for a seat in the senate. If he has to purchase a perpetual franchise from the legislature this year he will hardly be able to buy a new toga in 1904.

## TOO MUCH YELLOW.

General Corbin's flashy yellow scarf, which he uses to "set off" his new "olive drab" uniform, gave the Germans a scare. He wore it in a box at the Grand opera in Berlin a few nights ago, and the people thought he had been just quarantined.

## THE POOR SUFFER.

Poor people in New York who buy their anthracite coal by the bucketful are paying at the rate of \$18 a ton for it.

The burdens imposed by the trusts fall heaviest upon the poor always. It is hard enough to pay \$10 a ton for coal, but the man with \$10 has a great advantage over the man with only 25 cents. The member of a trust with his millions has a tremendous advantage over all.

Now the constitution and the law of the land do not contemplate that the rich shall have greater rights than the poor, and if the law of the land were enforced the trusts would not be allowed to oppress the people.

The anthracite coal industry is a complete monopoly. There is no tariff on coal because it cannot be imported at a profit. The cost of transportation from Europe is too great. The coal trust has a complete monopoly. It has the home market and it does with it as it will.

The interstate commerce laws provide for such an exigency. They are adequate to bring the coal trust to a halt, but they are not enforced. The trust laughs at the law. The men who are sworn to enforce the law are afraid to do their duty. And the burden falls upon the poor. President Roosevelt says they have grown no poorer, but those in New York who are paying \$15 a ton for coal know better.

PLEASANTLY SURPRISED.

Mr. Joseph Schwartz, of west McKibben street, was more than surprised last evening when many of his friends complimented him with a surprise at his home. He was detained up town until all arrangements were completed. Upon entering his home he was greeted by a merry crowd of jolly friends assembled to spend a season of enjoyment with him and reminded him that it was his birthday and they had come to help him celebrate it.

Tables were very neatly arranged for progressive pedo, in which five tables were filled with lovers of the game and others enjoyed a social chat. Ten games were kept warm on board in which Mr. Shamard proved to be the lucky one and carried home first prize while Mr. Charley Miller was more than consoled for his poor luck. At 12 o'clock an excellent three-course supper was served by Mrs. Schwartz to the invited guests, all of whom appreciated the generous hospitality accorded. Mr. Schwartz received many birthday presents from his friends. His aged mother, Mrs. Medial Schwartz, of Adrian, Michigan, was present and enjoyed the evening. At a wee small hour the crowd dispersed wishing Mr. and Mrs. Schwartz many more such happy birthday occasions.

## EPWORTH

Church Will be Dedicated Sept. 14.

Beautiful New Church on Bellefontaine Avenue

Is Ready to be Thrown Open to Those Who Have Waited Long and Patiently for the Glad Day.

September 14 has been decided as the date for the dedication of the handsome new Epworth Methodist church on Bellefontaine avenue but it is too early yet to give any idea of just what the program will be.

The handsome edifice has grown into its present stately proportions rather slowly, owing to unavoidable delays, but it is now finished inside and out and stands as a monument to the industry of Rev. Anderson and the liberality of those who number themselves among his congregation.

It could hardly be expected that an edifice of such proportions could be erected without considerable outside help and elsewhere in this issue Rev. Anderson makes a personal appeal to those who are not only interested in religious work but take a pride in the city.

The services Mr. Anderson has been holding during the summer at the opera house have been very popular and their discontinuance will be regretted by those who may not find it convenient to follow him back to his old pulpit; but when it comes to adding their mite to the collection to be raised on the day of dedication the popular young pastor will find that he has touched the pocket books as well as the hearts of those who have listened to his eloquent sermons.

## FIGHTING

Over Every Inch of Territory at Sidney.

The temporary restraining order of Howard Hill James House and Fave James against the Western Ohio Railway Company was heard yesterday afternoon by Judge Mathers at Sidney and a decision given. The court was of the opinion that the question of special damages to the plaintiff was a close one and gave them the benefit of the doubt and granted a temporary injunction increasing the bond of the plaintiffs from \$200 to \$500. J. E. Russell as receiver of the Agricultural Institute complained of the condition of street where the excavation had been made in front of the plaintiffs' property and forming with the tar next week when a hold under an order of the court. The court in a suggestion that the defendants give bond to reimburse the plaintiff should they become damages and proceed with the work. This raised objections on the part of the plaintiffs, and the case continued over until today.

## CHARITY

Begins at Home as in the Present Case.

Through the charity of a number of subscribers to a fund raised by Mrs. D. S. Cross, Miss Hale, an invalid girl is to be sent to the home of her uncle at Brilliant O who has promised to take care of her. The girl is a daughter of Mrs. Mary Hale who was sent to the Toledo asylum a year ago, and a sister is also at the institution. Her father died recently and she became an object of charity, her own health being such as to prevent her from doing anything for her support.

A sufficient amount was collected to provide some needed articles of wearing apparel and her fare to her destination, including a stop over in Toledo for a day that she might visit her mother.

## RUDDY HEALTH

A YOUNG WOMAN AND HER ENVIABLE COMPLEXION.

Some Sanative Hints on How to Procure Good, Natural Color May be Gained From Her Experience.

A good complexion depends upon good health. An enviable woman in this respect is Mrs. Ella Chapin, of Claremont, N. H., who says: "From long and constant caring for my sick mother my system became all run-down and, in the fall of 1897, I realized that I was in a very poor state of health. I was nervous and my blood was thin and poor. I had dizzy spells and severe headaches, had no appetite and became so weak that I was unable to do anything. The slightest exertion made me short of breath and faint."

This state of affairs continued for a year and I grew constantly worse. My uncle heard of Dr. Williams' Pink Pills for Pale People at Springfield, and was told of some remarkable cures they had accomplished, so he got me a supply. I began taking them and in less than two weeks I could see a change for the better. I continued their use and in a short time was cured."

Mrs. Chapin suffered from anemia, a disease caused by an actual deficiency of the blood and a watery and depraved state of that fluid. It is characterized by a pallid complexion, pale lips, dull eyes, tongue and gums bloodless; shortness of breath upon slight exertion—especially upon going up stairs, palpitation of the heart, feeling of impending death, weakness, loss of appetite and ambition. If left to itself it is apt to result in decline and death.

The one remedy that has proved itself a specific for this disease is Dr. Williams' Pink Pills for Pale People. These pills taken in increasing doses will never fail to effect a cure if used persistently for a reasonable length of time.

At all druggists or direct from Dr. Williams Medicine Company, Schenectady, N. Y. fifty cents per box, six boxes for two dollars and fifty cents.

## APPEAL

To Friends and Supporters of the Church.

Owing to a protracted illness I have been unable to do any work toward the dedicating of Epworth Methodist church. The date has been set for Sabbath morning Sept. 14, 1902. To dedicate the church \$5000 must be raised. To meet this I am asking 1000 of my friends to contribute \$5 each. This amount to be paid any time within a year is easily within the reach of all. Subscriptions may be given to me personally or sent to me by mail or phone. I will call on as many as possible but owing to my sickness and the shortness of the time I can not reach you all. Will you not come to the assistance of this worthy cause by sending in your subscription at once?

Thanking the people of Lima for their hearty response in the past, I am, Yours fraternally, GEO. W. ANDERSON.

**At Criminal Assault Charged Against William Wooley.**

**Arrested at 3 O'clock Today,**

**On Complaint Made by the Alleged Victim, the Eleven Year Old Daughter of Joseph McClain, of East Vine Street.**

At 3 o'clock this afternoon William Wooley, a married man aged about thirty years, was arrested at his home in the Crumrine block on south Main street, charged with having attempted to commit a criminal assault, the alleged victim being Malissa McClain, the eleven-year-old daughter of Joseph McClain, an employee of the Solar Refining Co., who lives at the corner of Vine street and Reece avenue.

About 1 o'clock this afternoon officer Charles Fenstermaker, who was on duty at the police station, received a telephone message from the Kelly & Fenwick grocery, at Vine street and St. Johns avenue stating that an unknown man had been seen going toward the woods at the south of the extreme east end of Vine street, accompanied by the little McClain girl. The parents of the child being away from home, the neighbors feared that the girl was being enticed away by some stranger, and they notified the officer. Fenstermaker and a Times-Democrat reporter hurried to the place from which the call came and were able to secure a description of both the man and girl but a search in the fields and woods in the direction they had taken failed to reveal their whereabouts. Returning to the home of the McClain family at 2 30

## FLAVOR

**Of Thirty Years Cling to the Old Briar.**

Charles Ruse, the day operator at the Lake Erie and Western passenger station, is the possessor of what is probably the oldest pipe in Findlay, says the Republican of that city. The exact age he does not know, as it came to him a few weeks ago in a rather odd manner.

Recently the railway company remodeled its passenger barn in this city to the extent of changing the location of the ticket window in the ladies' side of the establishment. To do that part of a partition was removed. When the boards were pulled off, there, resting on a bit of studding

ten feet above the floor, was a French briar pipe, with black ebonyized wood stem, just where it had probably been laid down by one of the carpenters engaged in the erection of the building over thirty years ago. The owner perhaps laid down the pipe and then in a moment of forgetfulness, walled it up. Maybe he has been hunting for it ever since.

# TAKES

**A Hint of Money to Travel**

**As the Figures**

**Of Local Railroad Agent Plainly Proves.**

**Receipts at C. H. & D. and L. E. & W. Offices for August Are Nearly \$20,000.**

**Excursion Season is Rapidly Drawing to a Close but There Will be Four Trips to Choose From Tomorrow.**

The monthly report from the office of the C. H. & D. and L. E. & W. shows astonishing receipts for August, and is an indication of the patronage enjoyed by the two roads during the big excursion month of the year. The combined receipts figure up a total of over \$19,000.

That amount includes the sale of mileage books, which was between \$2,500 and \$3,000, excursion business amounting to over \$5,000 and the sale of trip tickets to all points of about \$11,000. There were five Sundays in the month which helped to swell the receipts, but in every particular the business done was a big improvement over last year.

## Bridge Was Burning.

What is known as Bridge No. 8 on the C. H. & D. railway, just above Wyoming, was nearly consumed by fire last night. When Train No. 36 arrived there the engineer saw that the ties were afire. He stopped the train long enough to ascertain that the bridge was safe for the train, and then hurried on to Hamilton. Word was telegraphed back to Wyoming, and officer Disler, of that town, awoke the section boss, Ben Borgler. The two got together an impromptu fire department, which extinguished the fire before the Detroit express arrived. —Cincinnati Enquirer.

## Big Improvements.

The C. H. & D. is doing a large amount of reconstruction work on the line north of Dayton. The North Dayton yards are being extended until now they reach nearly to the bridge over the Miami river, a distance of two or three miles from the center of the city. This will give needed room for the storing and shifting of cars and for sidetracking of long freight trains. South of Dayton, the C. H. & D. also has big yards and altogether the company in and near Dayton has acquired immense property interests. New steel is being laid for several miles north of Dayton and new iron bridges are being put in. The old steel will be used for extending side tracks and in the yards. In addition to laying new steel a large amount of

ballasting is being done. C. M. Overly and his crew are looking after the bridge work and will put in a new iron structure near Dayton next week.

## Four Excursions.

There will be four excursions out of Lima tomorrow, two on the C. H. & D., one on the L. E. & W. and one on the Detroit Southern. The C. H. & D. will have a train north and south, the rate to Toledo being \$1.25 and to Cincinnati, \$1.50.

The Lake Erie and Western advertise Cedar Point as the attraction, and as there will be but one more during the season, the resort closing next Sunday, the patronage is expected to be good.

The Detroit Southern will have a big excursion to Jackson and intervening points, the train leaving at 5:30 and is billed to return at 11 o'clock.

## Death Rode With Her.

Mrs. Mary Lees, a resident of Hicksville, Ont., died on a C. H. & D. train Thursday night of consumption, and was viewed at the Union depot by Coroner Storz, of Toledo. The woman was bound from Florida to her Canadian home and died shortly after the train left Lima.

A purse of \$58 was raised by the passengers and turned over to the conductor. It will be used to defray the funeral expenses, as the family of the woman is thought to be in poor circumstances. The coroner of Lucas county took charge of the body and shipped it to a daughter in Hicksville, along all lines.

Engine No. 19, doing local switch duty for the L. E. & W. at Findlay, was brought to the Lima shops for repairs, yesterday. Several of the branch pipes of the locomotive have become damaged recently.

A. M. Arbaugh, claim agent of the L. E. & W., whose headquarters are at Indianapolis, is adjusting some matters in this vicinity.

The C. H. & D. and L. E. & W. will combine to run an excursion from Fort Wayne to Cedar Point tomorrow by way of Findlay.

H. G. Sugru has been promoted from traveling passenger agent with headquarters at Findlay to city passenger agent at Detroit for the C. H. & D. He and his wife will leave Findlay for the City of the Straits in time for him to take up his official duties October 1.

A large gang of men will be sent to Piqua soon for finishing up the tracks of the Western Ohio on the streets of that city. The high trestle work at Lockington that was thrown down by a high wind a few days ago, has been rebuilt and it is expected that an engine can be run over it this week to commence making the fill. Some steel has been laid on the west end of the viaduct.

Geo. Clifford, traveling passenger agent of the Canadian Pacific, was in the city over night.

C. A. Atherton, of the Nickel Plate, was looking after the interests of his road in Lima yesterday.

Dick Gorman, a fireman on the Erie, met with a painful accident at Spencerville, Thursday morning at 4 o'clock. He was firing on engine No. 1 on "bigger" local for engineer Guy Davis. A chunk of coal fell on the tender over the coal gate, striking Gorman on the head and inflicting an ugly scalp wound. The wound was dressed by a local physician.

## TALENTED

**Lima Vocalist Goes to Greenfield, Ind.**

**Miss Lillian Arthur to Teach Music in the Schools.**

**Having Added to Her Natural Talents by a Special Course of Instruction—A Severe Local Loss.**

It is with personal regret, and an echo of a like sentiment of all who are personally acquainted with Miss Lillian Arthur, that the Times-Democrat makes the announcement of her intention to sever her connection here and accept the position as teacher of music in the public schools at Greenfield, Ind.

One so well known, and universally appreciated for her womanly qualities as well as her talent, needs no introduction. Her frequent appearance in public, especially where music of a high class had a place, has brought her into prominence and the vacancy will be one hard to fill. Especially will the loss be felt by the choir of the Market street Presbyterian church to which she has added so much, and the Choral society which she has assisted on numerous occasions to win the plaudits of the best critics in the country.

There is some consolation in the hope that the loss will be but temporary and that the future may so adjust itself as to make it possible, as well as profitable, for her to return to Lima. Miss Arthur has been fitting herself for her chosen occupation as a teacher and a special course of study has added to her many other qualifications to such a degree that the people of Greenfield are to be especially congratulated on their choice.

The music to be rendered by the choir at the Presbyterian church has been especially arranged for Sunday morning, and the services are programmed as follows:
